Notes & Definitions

- Products** — Total Italian products in Open Food Facts.
- Ingredient Coverage %** — Share of products with an ingredient list.
- Additive Density** — Average number of additives per product (among products with ingredients).
- Appearance Share %** — Share of products with an ingredient list that contain at least one additive whose only role is appearance (colours, glazing agents).
- Category Gap %** — Share of products with an ingredient list that have no category (6.9%). The gap the category-prediction model will fill.
- Data Quality Pass Rate %** — Share of automated data quality checks passing.

- Additive Purposes:**
- Safety** — preservatives, antioxidants, acidity regulators
 - Texture** — emulsifiers, stabilizers, thickeners, raising agents
 - Taste** — sweeteners, flavour enhancers
 - Appearance** — colours, glazing agents

Additive metrics cover only products with an ingredient list (13.6% of 266,749 Italian products). Data: Open Food Facts, licensed under ODbL.
